

Regions of Canada Project

For our end of the unit project on Regions of Canada, each student will choose a province or territory and present the following information in a creative way. It could be on a Bristol board, media presentation, post card, information report, travel brochure, or book format:

1. What is your province or territory?
2. What land region does it belong to?
3. What is the capital city of your province or territory?
4. What are some of the main jobs in that province or territory?
5. List some attractions that tourists might want to see while visiting
6. What type of vegetation covers your province or territory?
7. List some sports and recreation activities that people like to do
8. What kind of resources can people find in your province or territory?
9. List any other interesting facts that you have found out about your province or territory
10. Are there any famous people from your Province/Territory? Not just sports people.
11. Include a copy of the flag and flower from your province. This can be drawn or a computer image.

Report presentations will be held during the week of November 9th. Please be ready to present to the class. You will be given class time to work on the assignment, but some may also need to be done at home.
